(54) Title: VEHICLE SAFETY DEVICE

(57) Abstract: An improved vehicle safety device in the form of a garment (1) wearable on the torso of a person. The garment has a body section having a front portion and a back portion, the front portion having one or more loops or straps (3) to which a car seat belt can be attached. The device also incorporates quick release mechanisms (17, 19) to allow it to be quickly and securely attached to a person and to be quickly removed in case of an emergency.
